Hoja Verde

A close-up photograph of a hand holding a vibrant blue rose. The hand has light green nail polish. The background is a soft-focus white fabric. A brown vertical bar is on the left, and a brown horizontal bar is at the bottom.

CARE

www.hojaverde.com.ec

CARE OF ROSES

Storage conditions

T: 15- 35 °C / RH: < 80%

For indoor use only

For use 6 months For Warehouse storage 18 months.

Do not submit

to drastic temperature changes to avoid condensations.

Keep strong colors apart

They may blend

Avoid mixing colors with white

They may fade. Use ivory

Advice:

Roses and stems may weep during season changes*

*Places with moisture changes may cause roses and stems to weep when they absorb moisture and expel preservation fluids. When season changes, this effect is common. However, the rose or stem will reach a new balance and will be beautiful again. It is important to clean these fluids with a paper towel.

Advice:

Roses and stems can stain*

*To remove stains on textiles, you can use alcohol and then wash them with vanish
